

ACTION ON RUSSELL REGARDED UNLIKELY

Incident Resolves Itself Into Bringing
the Corporation Commission
Into More Disrepute.

IMPEACHMENT IMPROBABLE

Lower Branch Will Not Bring Pro-
ceedings According to Present In-
dications—Senate Has Way Out.

World's Capital Bureau,
Springfield, Mo., Feb. 25.—The
state corporation commission always
unpopular with legislators, is more
unpopular than ever now with the
law making body and to what extent
this unpopularity may lead is prob-
lematical, but the Campbell Russell
episode of the senate, in the opinion
of well informed men here, will lead
to nothing more than to enhance
the commission's unpopularity. That
is, there is little likelihood, at this
time, that the house of representa-
tives will do more than to consider
the resolution adopted yesterday by
the senate in which an investigation
of the commission was asked for.
Under the circumstances, the sen-
ate was almost bound to do some-
thing about the letters which mem-
bers of that body received from the
corporation commission and a resolu-
tion of the sort which was adopted
furnished the "best way out." House
leaders have already said there is
nothing that can be done toward
bringing impeachment charges for
the reason that if grounds for im-
peachment are contained in Russell's
conduct, they are so well hidden that
no one could ever find them. Still
there are some house members who
would go ahead and bring the
charges and thrust them out before
the senate more for the sake of
discrediting the commission than
anything else.

But whatever happens to the Rus-
sell resolution, there is no denying
the fact that his attitude toward the
legislature has only served to make
the corporation commission exceed-
ingly unpopular and if nothing were
to be done before toward taking
steps to eliminate the commission,
Russell has brought such action one
step nearer. In fact much comment
was caused yesterday by the speech
of Senator W. P. Hill on the resolu-
tion. Senator Hill, who was formerly
an assistant attorney general and as
such was brought into intimate re-
lations with the commission, was one
of the last men who would have been
expected to voice the sentiments
which he did voice toward the com-
mission.

Senator R. L. Davidson has pre-
viously expressed his attitude and
other senators have endorsed his
views. This sentiment has now
spread to the house and a great
many representatives said last night
that even though they had never be-
fore considered a proposition to do
away with the commission seriously,
things had been brought to a point
where the legislature might take ac-
tion toward bringing this before the
people.

In the meantime the commission is
fighting for increased salary appro-
priations, pointing out that its work
is hampered because the salaries
paid to employees are too low. For
instance, Art L. Walker, a member
of the commission said the other
night in regard to the salary which
is now paid the commission's rate
expert, who receives a salary of
\$1,600 a year, that no real rate ex-
pert could be expected to continue
in a position which pays that salary
when large corporations are ready
at an instant's notice to pay \$5,000
a year or more for the services of
such men. "You can't expect a
\$1,600 a year man in the employ of
the commission to make the proper
showing against the corporation's
\$10,000 a year man, if you hope to
get the best results for the state,"
Walker said.

It is not unlikely that the corpora-
tion commission will receive further
attention from the legislature before
the session is over.

Peru Favors League.
WASHINGTON, Feb. 25.—All of
the leading newspapers of Lima, Peru,
state department advised today.
have commended the covenant of the
league of nations and the speech of
President Wilson in presenting the
text. Department dispatches from
Lima also reported that ex-
tremely favorable comment generally
has been accorded the proposed
league by the newspapers of Argen-
tina.

Would Use Roosevelt Vignette.
WASHINGTON, Feb. 25.—Senator
Knox of Iowa proposed to the
members of the senate today that the
vignette of Theodore Roosevelt be
placed on securities of the new "victory"
loan. He said he believed it
would be a fitting tribute to the
former president and that he might
offer an amendment to that effect
to the bond bill when it was reported
to the senate.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Nitro-Phosphate to
Put on Firm, Healthy Flesh and to
Increase Strength, Vigor and
Nerve Force.

Judging from the countless preparations
and treatments which are continually be-
ing advertised for the purpose of making
thin people fleshy, developing arms, neck
and bust, and replacing sagging hollows
and sallow, the soft, curved lines of health
and beauty, there are evidently thou-
sands of men and women who keenly feel
their extreme thinness.

Thinness and weakness are usually due
to starved nerves. Our bodies need more
phosphorus than is contained in modern
foods. Physicians claim there is nothing
that will supply this deficiency so well as
the organic phosphate known among drug-
gists as Nitro-Phosphate, which is inces-
santly and sold by most all druggists
under a guarantee of satisfaction or money
back. By feeding the nerves directly
and by supplying the body cells with
the necessary phosphate food elements,
Nitro-Phosphate quickly produces a real
transformation in the appearance of
the individual, the increase in weight frequently being
astonishing.

This increase in weight also carries with
it a general improvement in the health.
Nervousness, sleeplessness and lack of en-
ergy, which nearly always accompany ex-
treme thinness, soon disappear, dull eyes
become bright, and pale cheeks glow with
the bloom of perfect health.

CATION.—Although Nitro-Phosphate
is recommended for relieving nervousness,
sleeplessness and general weakness, it
should not, owing to its remarkable flesh-
forming properties, be used by anyone
who does not desire to put on flesh.—Adv.

Thrilling Entrance Into Life

Baby Jacobson in arms of nurse Grace Hazard.

MILWAUKEE, Wis., Feb. 22.—Baby Jacobson, a boy not yet named, is
entitled to claim the record for excitement in his trip into the world. Mrs.
J. M. Jacobson of Watertown called Dr. Frank Malone to care for her, and
he decided that a Caesarian operation was necessary immediately. Taking
Mrs. Jacobson and her sister, Mrs. Anna Bahr, into his automobile he
forgot all speed regulations in hurrying to a Milwaukee hospital. Reach-
ing the city, his car collided with the machine of Barney R. Weber, Mil-
waukee contractor. Weber was killed and Malone and the two women
were pinned under Dr. Malone's overturned machine. Mrs. Jacobson was
first to be rescued. She was hurried to the hospital, the operation per-
formed and the baby boy born two hours after the automobile smash.
Meanwhile Mrs. Bahr was in another hospital with a possible broken spine.
Dr. Malone's injuries kept him in the hospital several days. Mrs. Jacobson
and her son are both doing nicely. Grace Hazard, their nurse, says the
baby is a perfect child and weighs nine pounds.

PERSHING DENIES REPORT OF YANKS' FOOD IN ITALY

WASHINGTON, Feb. 25.—Denial
of charges in a letter read in the
house recently as to conditions in the
332nd Infantry in Italy, was made by
Brig. Gen. Charles C. Treat, Ameri-
can military attaché at Rome, in a
cablegram forwarded to Secretary
Baker today by General Pershing.
General Treat said the regiment was
in good physical condition, well
equipped, had experienced no serious
food hardships and had had a very
low number of summary courts-mar-
tial.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils
Opens Air Passages Right Up.
Instant relief—no waiting. Your
cleared nostrils open right up; the
air passages of your head clear and
you can breathe freely. No more
hawking, snuffling, blowing, head-
ache, dryness. No struggling for
breath at night; your cold or catarrh
disappears.
Get a small bottle of Ely's Cream
Balm from your druggist now. Apply
a little of this fragrant, antiseptic,
healing cream in your nostrils. It
penetrates through every air passage
of the head, soothes the inflamed or
swollen mucous membrane and re-
lieves commonest ailments.
It's just fine. Don't stay stuffed-
up with a cold or nasty catarrh.

HALF MILLION ARMY FAVORABLY REPORTED

Senate Committee Favors Provision
Turned Down By House—Volun-
tary Enlistment Bill Passes.

WASHINGTON, Feb. 25.—Coin-
cident with the final enactment today
of legislation providing for resump-
tion of voluntary enlistment in the
army under the national defense act
of 1916, limiting the military es-
tablishment to 175,000 men, the sen-
ate military committee approved
and reported to the senate the an-
nual army appropriation with provi-
sion for a temporary force of about
538,000 men after next July 1.

The increased force for the next
fiscal year was recommended by the
war department, but legislative pro-
visions authorizing it were stricken
out in the house on points of order.
Leaders hope to have the army
measure finally completed before
congress adjourns.

It was explained tonight that the
enactment of legislation to permit
resumption of voluntary enlistment
immediately was for the purpose of
enabling the war department to en-
roll now any member of the present
war army who desires to continue in
the regular force.

Before approving the regular
army bill with its appropriation of
\$125,000,000, the senate today
adopted an amendment providing for
the enlistment of an independent
bureau of aeronautics to combine

the activities now being conducted
under that head by the army, navy
and marine corps.
The director of the bureau, to be
appointed by the president with the
consent of the senate, would receive
a salary of \$12,000 and would not
be under the supervision of any cabi-
net officer. An assistant director
at a salary of \$5,000 also was pro-
vided.

FORMER SHAWNEE MAN SHOT BY LOUISIANA NEGRO

BATON ROUGE, La., Feb. 25.—
A sheriff's posse and city police are
combining the country in this sec-
tion in search of Fred Martina,
negro who, authorities claim, shot
and killed George Ingram of New
Orleans, a locomotive engineer, in
the cab of an engine on the L. & N.
railway near here early today.
Martina, who is said to be known by
the name of "Pickles," was fireman
for Ingram. There were no wit-
nesses to the shooting.

The slain man's home formerly
was in Shawnee, Oklahoma.
No Evidence Against Standards.
PHILADELPHIA, Feb. 25.—United
States Attorney Kane in a statement
today said no evidence whatever sub-
stantiating the original information
of a plot to assassinate the president
had been developed by the examina-
tion of 19 Standards under arrest
here. Mr. Kane said he had re-
ported to the department of labor
for deportation of four of these men,
but that the ground that they
were members of a body of assas-
sination plotters.

NEGRO BOY TO FACE MURDER TRIAL TODAY

Rufus Shaw, Charged With Death of
Negro School Girl, Last Defend-
ant at Present Term.

Only one case remains for trial
at the special January term of the
district court which convened on
February 17, that is the case of
Rufus Shaw, negro, charged with
murder. He will be tried today and
the jury discharged, according to a
statement made by Judge Redmond
8 Cole yesterday.

Judge Cole has appointed A. E.
Montgomery, former assistant coun-
ty attorney to defend Shaw, who told
the court that he was without funds
to employ an attorney.
Shaw is charged with having
killed Evelyn Blackley, colored
school girl early in January of this
year when he pointed a rifle at a
group of school children and com-
manded them to hold up their
hands. Shaw claims that the shoot-
ing was an accident. He said that
he was only playing with the chil-
dren, and did not intend to dis-
charge the gun.
Maynard Hall, a negro charged
with grand larceny who has been in
jail for 11 months, was permitted to
plead guilty to a charge of petit
larceny and was sentenced to 30
days in jail by Judge Cole, yester-
day in the district court.
